

Step 1: Lay your paper with the patterned side facing up.

Step 2: Cut along the red lines, stopping at the red dash mark, about an inch from the center.

Step 3: Fold the top left corner inward without creating a crease in the paper. Do the same for the other three corners like the picture below.

Step 4: Take a tack and pin the corners in the center to the eraser of a pencil. Leave enough room for the paper to spin when you blow it.

Step 5: Take it for a spin outside. Happy Earth Day!
